Systems Engineering of a Formula SAE Race Car

Advisor: Albert George (MAE and SYSEN)
Number of students: 1-2 Systems Engineering MEng students (or possible senior engineering student)
Students must be taking SYSEN 5100 Applied Systems Engineering (Cross-listed as MAE 5910, etc.). Will work closely with FSAE team members and Prof. George to formally apply Systems Engineering to the FSAE race car’s design, build, develop, and change control processes. Interests in engineering product development, management, and automotive areas are needed. Must become member of FSAE team.
